President
Cedar Hardscaping LLC
1782 Red Lion Rd.
Bear, DE. 19701

Dear Alfonso,

It is with great pleasure that I recommend Cedar Hardscaping to anyone seeking to work with a dedicated inspired and professional hardscaping contractor.

The consultation and design process actually began one full year prior to any construction. As a homeowner I encounter many external obstacles along the way which Alfonso was more than willing to work around – his patience is unparalleled. Alfonso's vision and imagination helped make the most of my outdoor living space. He was able to integrate texture and color with the existing architecture and carefully considered my needs and desires. This helped to create a unique environment which will provide style and excitement for many years to come.

His team was prompt, efficient and agile – working during the most volatile of seasons (Stormy Spring) as the project was well underway Alfonso and I discussed a few changes and additions. He was extremely flexible and wanted to be sure that as a homeowner I more than was satisfied with the end result. There are many examples where they all went the extra mile.

Alfonso and his team take pride in their work – and pay attention to even the smallest detail. It is clear that all who work for Cedar Hardscaping enjoy creating beautiful gardens and designs that combine quality aesthetics and practicality. The end result was both enhanced the beauty and value of my house.

I will definitely engage Alfonso and Cedar Hardscaping in all future projects.

Sincerely
Mark D. Rappold
