To whom it may concern,

We recently had landscaping done using Cedar Landscaping. We made several calls. Cedar landscaping returned our call promptly and made an appointment quickly. Mr. Lopez was very respectful and courteous, as well as knowledgeable. After discussing our desires, Mr. Lopez was able to create a plan and design. He was very quick with giving us an estimate and revised the plan to suit us. We found his prices very competitive. During the construction phase, Mr. Lopez and his associates were extremely hardworking and very neat. Both the flowerbeds and brick walkway, were completed to specifications. We are very happy with the finished product. We would and have recommended Cedar Landscaping for your project.
